2016 Formulary

(List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

HPMS Approved Formulary File Submission ID 15262, Version Number 5

This formulary was updated on 8/27/2015. For more recent information or other questions, please contact AgeWell New York, LLC Member Services, at 1-866-586-8044 or, for TTY users, 1-800-662-1220, 8 AM to 8 PM, 7 days a week, or visit www.agewellnewyork.com.

AgeWell New York, LLC is an HMO plan with a Medicare contract.

This information is available for free in other languages. Please call our customer service number at 1-866-586-8044 TTY users should call 1-800-662-1220 7 days a week from 8:00 a.m. to 8:00 p.m. eastern time.

This document may be available in an alternate format such as Braille, larger print, or audio.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means AgeWell New York, LLC. When it refers to “plan” or “our plan,” it means AgeWell New York, LLC.

This document includes list of the drugs (formulary) for our plan which is current as of 8/27/2015. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2016, and from time to time during the year.

What is the LiveWell (HMO) Formulary?

A formulary is a list of covered drugs selected by AgeWell New York, LLC in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. AgeWell New York, LLC will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at an AgeWell New York, LLC network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2016 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2016 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug [or move a drug to a higher cost-sharing tier], we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of 8/27/2015. To get updated information about the drugs covered by AgeWell New York, LLC, please contact us. Our contact information appears on the front and back cover pages. *In the event that the plan makes a mid-year non-maintenance formulary change, we will notify you of the change via mail, so you can update your existing printed formulary. The mailing will include specific information on the non-maintenance formulary change and will be sent to you at least 60 days prior to the date the change becomes effective.*

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Bipolar agents". If you know what your drug is used for, look for the category name in the list that begins below. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 132. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

AgeWell New York, LLC covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** AgeWell New York, LLC requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from AgeWell New York, LLC before you fill your prescriptions. If you don't get approval, AgeWell New York, LLC may not cover the drug.
- **Quantity Limits:** For certain drugs, AgeWell New York, LLC limits the amount of the drug that AgeWell New York, LLC will cover. For example, AgeWell New York, LLC provides 10 units per prescription for *fentanyl dis 50mcg/hr*. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, AgeWell New York, LLC requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, AgeWell New York, LLC may not cover Drug B unless you try Drug A first. If Drug A does not work for you, AgeWell New York, LLC will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our web site. We have posted on line documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

2016 Part D Model Formulary (Abridged and Comprehensive)

You can ask AgeWell New York, LLC to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the AgeWell New York’s formulary?” on page iv for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that AgeWell New York, LLC does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by AgeWell New York, LLC. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by AgeWell New York, LLC.
- You can ask AgeWell New York, LLC to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the LiveWell (HMO) Formulary?

You can ask AgeWell New York, LLC to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, AgeWell New York, LLC limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, AgeWell New York, LLC will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiers or utilization restriction exception. **When you request a formulary, tiers or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber’s supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with *at least 91 and may be up to a 98-day* transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

Existing Member in Plan with Level of Care Changes

For enrollees who are outside their transition period, and experience a level of care change in which an enrollee is changing from one treatment setting to another (example: LTC to hospital to LTC, hospitals to home, home to LTC), upon admission or discharge from a treatment setting or LTC, The Organization will allow the enrollee access to a 30/31 day refill (30 days in the retail setting and 31 days in the LTC setting) for formulary medications and an emergency 30/31 day refill (30 days in the retail setting and 31 days in the LTC setting) transition fill for non-formulary medications (including Part D drugs that are on Plan Sponsor's formulary but require prior authorization or step therapy).

This policy does not apply for short-term leaves of absences (i.e. holidays or vacations) from LTC or hospital facilities.

To the extent that an enrollee is outside his or her 90-day transition period, and is in the outpatient setting, The Organization will still provide an emergency 30 day supply of non-formulary medications (including Part D drugs that are on a Plan Sponsor's formulary that would otherwise require prior authorization or step therapy under Plan Sponsor's utilization management rules), on a case by case basis, while an exception request is being processed.

To the extent that an enrollee is outside his or her 90-day transition period, and is in the LTC setting, The Organization will still provide an emergency 31 day supply of Part D covered non-formulary medications (including Part D covered drugs that are on a Plan Sponsor's formulary that would otherwise require prior authorization or step therapy under Plan Sponsor's utilization management rules), while an exception request is being processed.

2016 Part D Model Formulary (Abridged and Comprehensive)

To the extent that the Plan Sponsor's transition policy differs from the above policy, the Plan Sponsor's policy differences will be implemented by The Organization.

For more information

For more detailed information about your AgeWell New York, LLC prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about AgeWell New York, LLC, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

AgeWell New York's Formulary

The formulary below provides coverage information about the drugs covered by AgeWell New York, LLC. If you have trouble finding your drug in the list, turn to the Index that begins on page 52.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., OPANA) and generic drugs are listed in lower-case italics (e.g., *oxymorphone*).

The information in the Requirements/Limits column tells you if AgeWell New York, LLC has any special requirements for coverage of your drug.

PA – Prior Authorization:

For certain drugs, you or your provider need to get approval from the plan before we will agree to cover the drug for you. This is called “**prior authorization.**” Sometimes the requirement for getting approval in advance helps guide appropriate use of certain drugs. If you do not get this approval, your drug might not be covered by the plan.

QL - Quantity Limit

For certain drugs, we limit the amount of the drug that you can have. For example, the plan might limit how many refills you can get, or how much of a drug you can get each time you fill your prescription. For example, if it is normally considered safe to take only one pill per day for a certain drug, we may limit coverage for your prescription to no more than one pill per day.

ST – Step Therapy

This requirement encourages you to try less costly but just as effective drugs before the plan covers another drug. For example, if Drug A and Drug B treat the same medical condition, the plan may require you to try Drug A first. If Drug A does not work for you, the plan will then cover Drug B. This requirement to try a different drug first is called “**step therapy.**”

2016 Part D Model Formulary (Abridged and Comprehensive)

Cost Sharing Amounts

LiveWell (HMO)

	Tier 1	Tier 2	Tier 3	Tier 4	Tier 5
Tier Drug Type	(Preferred Generic)	(Non-Preferred Generic)	(Preferred Brand)	(Non-Preferred Brand)	(Specialty)
Standard retail cost sharing (in-network) (up to a 30-day supply)	\$5 copay	\$15 copay	\$45 copay	\$95 copay	25%
Mail-order cost sharing (up to a 30-day supply)	\$15 copay	\$37.50 copay	\$112.50 copay	\$237.50 copay	25%
Long-term care (LTC) cost sharing (up to a 31-day supply)	\$5 copay	\$15 copay	\$45 copay	\$95 copay	25%
Out-of-network cost sharing (Coverage is limited to certain situations; see Chapter 5 for details.) (up to a 30-day supply)	\$5 copay	\$15 copay	\$45 copay	\$95 copay	25%

AgeWell New York LLC is an HMO plan with a Medicare contract. Enrollment in AgeWell New York LLC depends on contract renewal. The benefit information provided is a brief summary, not a complete description of benefits. For more information contact the plan. Limitations, copayments, and restrictions may apply. Benefits, formulary, pharmacy network, premium and/or co-payments/coinsurance may change on January 1 of each year. You must continue to pay your Medicare Part B premium unless paid for by the state medical assistance program. This information is available for free in other languages. Please call our customer service number at (866) 586-8044 TTY users should call 1-800-662-1220 7 days a week from 8:00 a.m. to 8:00 p.m. eastern time.
